We are pleased to announce the promotion of Rob Adams to the position of Vice President of Landrum & Brown, effective January 1, 2009. In his new position, Rob will continue his role within the Environmental Division in project management and oversight and will assume additional responsibilities within the Division assisting Jon Woodward with the overall management of the environmental services of the firm. He will report to Jon and to Mark Perryman and will continue to be based in Cincinnati.

A 16-year aviation industry veteran, Rob focuses on the preparation and management of Environmental Impact Statements, Environmental Assessments, FAR Part 150 studies, and other environmental and noise studies. Throughout his career, he has sought out creative solutions for our clients. His greatest strengths include his ability to organize and manage complex projects and to provide the type of personal client service that has been a hallmark of L&B over the last 60 years. Rob's strategic thinking has made him an indispensable asset to many of our airport clients. He routinely shares his views on the field of aviation environmental planning through formal training courses, speaking at conferences, and working with local universities. Rob is dedicated to the continued improvement of the aviation industry and the effective management of airport projects. Please join us in congratulating Rob on his continued success and growth at L&B.

Landrum & Brown (L&B) is the oldest and most innovative privately owned consultancy dedicated solely to the needs of the commercial aviation community, focusing on solutions for the world's busiest and most challenging airports. Our focus on the highly specialized issues of the global aviation industry provides our clients with a level of expertise and vision that cannot be matched by our competitors. Through experience, cutting edge technology, and teamwork, our ideas are shaping the future of aviation. For more information about L&B, visit our website at www.landrum-brown.com.
