

POSITION: Senior-Level Airport Planners and Project Managers

L&B, a global airport planning and consulting firm operating in the U.S. and internationally, is currently seeking **Senior-Level Airport Planners and Project Managers** for large-scale planning assignments within its global organization with ten plus years of experience.

The senior-level airport planners and project managers will lead teams of planners and designers that work on aviation projects throughout the world. They will prepare airfield layouts and plans per ICAO standards and FAA Advisory Circulars, as well as manage planning projects and assignments, including day-to-day communication with clients and in-house technical staff. They will provide client and project management services on projects related to the aviation market and expand business prospects in respective regions.

Responsibilities: performs overall project management on aviation market projects; develops strong client relationships; establishes, monitors, and reports monthly project financials; and develops project proposals, presentations, and marketing materials as required.

Successful candidate will have strong verbal and written communication skills and a high level of software proficiency, including use of CAD and airport simulation tools; a willingness to travel between firm's worldwide offices a must; and a willingness to relocate to locations outside the U.S. on a permanent or semi-permanent basis is highly desired.
